

## *A Trip Through the Digestive System*

### **Project Due Dec. 19, 2014**

#### **Task:**

Imagine that you are a food traveling through the Digestive System. Create a series of postcards that describe your journey and include detailed information about the Digestive System.

#### **Procedure:**

1. Finish reading the chapter 2, sections 3&4.
2. Complete the guided reading packet.
3. If you're going for an 'A', you'll need to research and include more information than we went over in class.
4. Choose a food character that will experience and write about this trip.
5. Create a minimum of 5 postcards, one for each of five major areas of the system: the mouth, the esophagus, the stomach, the small intestine, and the large intestine. The front of the postcard should have a picture and the back should describe the experience from the food's point of view.
6. Be sure to include as much information about the Digestive System as you can. Include an explanation of the function and structure of each part. Also define vocabulary as necessary.
7. Pictures must be hand done, internet or clip art is not allowed.
